

Successful Partial Dentures- design, clinical techniques and
troubleshooting

(15-02-06-01)

Date and venue:

Friday 6th February 2015
Buckerell Lodge Hotel, Devon N & E

Course Organiser:

Samantha Braddock

Course Lecturers:

Rob Jagger BDS MScD FDSRCS
Consultant in Restorative Dentistry

Aim:

This course allows hands-on experience of partial denture designing and provides an opportunity to discuss problems and solutions related to clinical partial denture prosthetics in a relaxed but informative setting.

Learning outcomes:

At the end of the course participants should:

- Appreciate the information that is needed to design successful partial dentures
- Be able to describe the component parts of a RPD and explain their function
- Be able to design successful metal and acrylic partial dentures
- Understand what is needed to achieve success when treating partial denture patients
- Understand how to solve problems associated with partial dentures

Programme

9.15	Registration
9.30	A systematic approach to partial denture design
10.30	Practical hands-on denture design
11.20	Coffee
11.45	RPD design presentations
12.30	Discussion
13.00	Lunch
14.00	Introduction to clinical partial dentures
14.15	Standard techniques
15.00	Special techniques
15.30	Coffee
15.45	Partial denture problem solving
16.45	Discussion
17.00	Close
