1100 -1115	Coffee
1115 -1245	Session 2: Photographic and auxillary equipment.
1300 -1400	Lunch – At the John Bull Building.
1400 -1530	Session 3: Use of photographs, storage, legal aspects.
1530 -1545	Coffee
1545 -1630	Session 4: Your camera and the settings, questions.

Course Aim:

- Introduce the concept of digital close up photography.
- Show the photographic equipment and auxiliary equipment required to take good dental photographs.
- Using photographs for patient education, lecturing, case presentation and examination cases.
- Storage and retrieval of images and medico-legal aspects.

Course Objectives:

1. At the end of the session participants will have a better idea of how to set up the equipment for dental photography.
2. Adrian Watts will help calibrate any equipment brought along on the day.
3. Participants will understand the issues around consent, storage, retrieval and data protection.
