

‘Managing the Non-Vital Tooth’

Paul HR Wilson & Jonathan Cowie

Aim: This interactive course will enable an evidence-based approach to the predictable management of the non-vital tooth, from diagnosis and beyond.

Objectives: At the end of the course, participants will have:

1. An evidence-based knowledge of endodontics and restoration of the non-vital tooth;
2. Be able to treatment plan and problem-solve issues in the management of the non-vital tooth;
3. Use available evidence in the selection of dental materials for treating the non-vital tooth.

Timetable:

0900 – 0915 Registration & Coffee

0915 – 0930 Introduction

0930 –1015 Pathophysiology of Oro-Dental Pain

1015 – 11.00 Signs & Symptoms

1100 –1115 Coffee

1115 –1200 Assessment of Restorability & Pre-Endodontic Management

1200– 1245 Root Canal Treatment : Part 1

1245 –1315 Lunch

1315– 1400 Root Canal Treatment: Part 2

1400– 1445 Definitive Restoration: Part 1

1445– 1500 Tea

1500 –1530 Definitive Restoration: Part 2

1530– 1600 Follow Up & Documentation

1600 Conclusions, Discussion & Close
