14.45 – 15.00	Tea/Coffee
15.00 – 16.30	Clinical techniques (cont) Partial denture problem solving Discussion
16.30	Questions and Close

Aims: To show how to provide optimum treatment and to give an opportunity to discuss problems and solutions related to clinical complete and partial denture prosthetics

Objectives: At the end of the course participants will understand:

- Good practice in the assessment and treatment of edentulous and partially dentate patients
- The use of special techniques used to manage difficult patients
- What is needed to achieve success when treating denture patients
- How to solve problems associated with dentures

Outcomes: Increased confidence in the provision of optimum complete and partial dentures for your patients
