<b>16:15 – 16:30</b>	Review of the day/Questions
<b>16:30</b>	<b>Course Close</b>

### Aim:

To update your knowledge on the variety of preparations required for both traditional and modern material choices; to practice preparations and how preps may be modified if a change of material is required

**Objectives:** By the end of the course participants should have been able:

- To improve their awareness of the variety of tooth preparations
- To improve their tooth preparation skills
- To develop high quality tooth preparation skills
- To develop self-critical analysis skills

### Outcome:

To better understand how material choice affects tooth preparations for crowns
