16.45 Discussion and Close

Aim: to provide the options and techniques for carrying out anterior diagnostic waxing and aesthetic anterior composite restorations.

Objectives: By the end of the day delegates should have a better appreciation of:

- tooth shape in relation to smile design
- diagnostic and aesthetic waxing up
- anterior aesthetics using composite layering techniques

Outcome: A better understanding of the options and techniques available regarding tooth shape in relation to smile design and anterior aesthetics including an improved ability to carry out diagnostic waxing and composite layering.
