

Enhanced Dental Education Supervision— Live Webinar

4 external CPD points

Introduction

Following this webinar, Educational Supervisors will be able to apply practical tips and techniques in supervising dental trainees who need focused support to achieve knowledge and competence to perform at the level that is required of them. We will look at getting the best out of the learning environment, close supervision, dealing with poor reflective practice in dental trainees, constructive feedback and facing resistance. We will also be setting up action learning sets, or Balint groups to support ongoing learning for Education Supervisors, informed with insights gained from exploring undergraduate teaching.

Course Structure

- **4 hour webinar**
- **Date: 9th and 19th September 2022**
- **Timings: 9am – 1pm**

Webinar Objectives

- Explore the ES experience of the quality of FDs beginning their career development who have just finished Dental School using the Balint method or action learning sets
- Share insights from undergraduate teaching
- Enhanced Dental Education Supervising - sharing experience and findings to date
- 'Chair-side' supervision in the learning environment
- Improve reflective practice skills in the trainee
- Empower the dental trainee through constructive feedback
- Review, action planning and close
