

What's new for Dental Primary Care in Knowsley?

This event will provide an insight into
how Primary Dental Care will be
supported to develop the service
needed to tackle poor oral health.

We would like to invite dental teams to a local event to hear about the strategy being developed to support oral health in Knowsley. Working together, Knowsley Council, Health Education England, the Local Dental Network, NHS England and Public Health England will support primary care practices to tackle the poor oral health of the population.

Keynote speakers will raise awareness of how we can support local practices in this area to make a difference.

Working in partnership, we will support the development of resources and bespoke training for all dental teams in Knowsley. However, to do this we need your help. We need to understand what resources and training you would like to see delivered locally, either in-house or at local venues.

For full aims, objectives, learning outcomes and to reserve your place visit the Maxcourse website: www.maxcourse.co.uk/henw

Closing date 20th April 2016. Booking enquiries contact Cathy Fogg 0151 285 4748
