

This full day course on endodontics will be partly lecture based & partly hands-on. It will give participants a thorough grounding in modern endodontic theory & practice & also provide an opportunity to learn and practise rotary endodontics using NiTi systems. The speakers are very accomplished in this type of course & welcome delegates bringing any questions on endodontic & related topics.

Course Aims

- To refresh & update delegates in modern endodontic theory
- To provide delegates with the opportunity to learn rotary endodontic techniques
- To provide an open atmosphere where delegates can freely question the speakers on problems & issues they may have

Learning Outcomes

By the end of the day, delegates should

- Be more aware of modern endodontic theory & practice
- Be able to introduce rotary endodontics into their armamentarium
- Have solved any pressing endodontic concerns they may previously have had

This is a limited attendance course so early application is advised.
