Dave Edwards
Resuscitation Consultancy
Medical Services Ltd

A green plastic first aid kit is open, showing various medical supplies inside. The kit has a white cross logo on the lid and the words "TRAVEL FIRST AID KIT" printed on it. Inside, there are several white packets of sterile dressings, a roll of white bandage, and other medical supplies. A small instruction card is visible, titled "DIRECTIONS :-" and "Avoid touching wound and when opening dressing do not finger the face of the sterile pad. Place pad over wound, retaining hold of the edges, and only use the bottom edge to peel away the top layer." The kit is set against a background of colorful geometric shapes in shades of green, blue, and yellow.

Dental Medical Emergency

A course for the dental team

Overview:

This course has been specifically developed to meet the needs of dental professionals and to comply with guidance from the CQC, Resuscitation Council and the GDC. Candidates will be awarded an EFA first aid certificate. This course is especially suitable for the “nominated first aider in the practice”.
