

Oral Cancer: Referral to Rehabilitation

Health Education North West
Department of Postgraduate Dentistry

An Event for the Dental Team

Speakers:

Craig Barclay Consultant in Oral Rehabilitation

Ahmed S Al-Khayatt Consultant in Restorative Dentistry

Gillian Hall Consultant Histopathologist

Matthew Kennedy Specialist Registrar in Oral & Maxillofacial Surgery

Aim:

To provide appropriate information to facilitate early diagnosis of oral cancer and the Dental teams' role throughout the patient's journey from referral to rehabilitation.

Objectives:

- Identify oral pre-malignant conditions
- State the referral procedures and what happens next
- Provide an insight into rehabilitation strategies for all head and neck patients including those who receive chemo/radiotherapy
- Discuss the GOP/Dental Team's role before, during and post-treatment of oral cancer
