SPEAKER:

Tim Reynolds

A close-up photograph of a dental procedure. A dental professional wearing a white glove is using a red ringed X-ray collimator to position a dental X-ray film in a patient's mouth. The patient's face is partially visible, showing their teeth and the collimator being held in place.

Practical Radiography IR(ME)R:

A course for Dental Practitioners and Operators.

Overview:

this session will review and refresh delegates knowledge and skills in the performance of intra-oral dental radiography. By improving the standards of radiography undertaken in dental practices delegates will comply with IR(ME)R by producing the best possible images.

For full aims, objectives, learning outcomes and to reserve your place visit the Maxcourse website:
