Non NHS £30.00

SPEAKER:

Ian Cross

A close-up photograph of a metal rubber dam frame being used to clamp a green rubber dam sheet. The frame has two long, curved arms that meet at a central hinge. The green sheet is partially folded and held taut by the frame. The background is a light blue gradient.

Rubber Dam:

A course for the dentists & dental nurses

Overview:

This practical hands on session will demonstrate the skills needed for placing Rubber dam. The session will also emphasise the role of the dental nurse in the quick delivery and placement of rubber dam.

It is recommended that dentists attend with their nurse, although this is not essential.
