A composite image featuring a close-up of a person's teeth and gums, a professional camera lens, and a dental mirror, all set against a dark background.

Clinical Photography for the Dental Team

Overview:

This one day course is a mixture of lecture and hands on practice outlining the use of clinical photography in daily practice and its medicolegal aspect. Learn how to take high quality digital dental photographs using correct positioning and settings and explore quality resources for your practice.

A camera will be provided, however if you would prefer to learn with your own camera, please bring it with you.

For full aims, objectives, learning outcomes and to reserve your place visit the Maxcourse website: www.maxcourse.co.uk/henw

Refunds will only be given up to 4 weeks prior to the course date. However, places can be transferred between colleagues if necessary at any time.
