Periodontology 2017: Where are we now?

A hands on course for Dentists

Overview:

This combination of hands on practice and lecture focuses on current concepts in periodontal diagnosis, treatment planning and supportive therapy of common periodontal problems. Risk factors will be discussed along with periodontal treatment pathways, surgical and non-surgical therapy and the use of antimicrobials.

This course involves a hands on element using pigs jaws to practice basic surgical techniques. Booking will close on 23rd January 2018.

For full aims, objectives, learning outcomes and to reserve your place visit the Maxcourse website: www.maxcourse.co.uk/henw

Refunds will only be given up to 4 weeks prior to the course date. However, places can be transferred between colleagues if necessary at any time.
