

# Radiography Update

## An essential course for the dental team

This session aims to relate the legislative components of IR(ME)R to everyday practice when using radiography as part of dental treatment.

## Objectives

- Define IR(ME)R in practice and demonstrate its place in radiation protection.
- Discuss the optimisation and justification of radiation exposures and maintain patient safety.
- Identify when it is appropriate to use radiation as part of dental treatment and when it is not, in accordance with the Selection Criteria for Dental Radiography.

## Learning Outcomes

To be aware and apply the legal requirements needed into clinical practice
