Environmental Cleaning and Maintenance in the Dental Surgery

This course is part of a series of infection control lectures that focuses on specific topics relating to infection control for the whole dental team

Overview:

This lecture is designed to refresh and broaden your knowledge of the following:

- Requirements for controlling the spread of infection within a dental practice
- Waste segregation and maintenance
- Legionella prevention
- NPSA colour coding of cleaning equipment
- Maintenance of correct ventilation

For full aims, objectives, learning outcomes and to reserve your place visit the Maxcourse website: www.maxcourse.co.uk/henw

Refunds will only be given up to 4 weeks prior to the course date. However, places can be transferred between colleagues if necessary at any time.
