Non NHS £30.00

SPEAKER:

Tracey Gregory
Associate Lecturer in
Radiography

A close-up photograph of a hand wearing a purple nitrile glove, holding a small, square dental radiograph (X-ray) between the thumb and index finger. The X-ray shows a cross-section of a tooth with a dark, radiopaque area in the center, likely representing the root or a filling. The background is blurred, showing what appears to be a dental clinic setting.

Radiography: Re-Visiting the essentials for compliance

A course for the dental team

Overview:

This course will provide a refresher on the essential legal requirements to ensure compliance with IRR and IR(MER), with a focus on the Radiation Protection file and Quality Assurance . It will also summarise the biological effects of ionising radiation and how it is relevant in Dental radiography.
