SPEAKER:

Wendy Thompson

A scanning electron micrograph showing a dense cluster of cells. Most cells are spherical and have a textured, bumpy surface. A single, elongated, rod-shaped cell is highlighted in yellow, standing out from the surrounding blue and purple cells.

Antimicrobial Resistance

Course for the dental team

Overview:

Antibiotics play an important role in dentistry but they also come with increasing worldwide problem.

Join our course to identify resources for better delivering antimicrobial care and let us update you on smarter antibiotics prescribing.

Get the whole team involved and explore roles everybody plays in the patients' protection from the antibiotic resistance.

For full aims, objectives, learning outcomes and to reserve your place visit the Maxcourse website: www.maxcourse.co.uk/henw

Refunds will only be given up to 4 weeks prior to the course date.
However, places can be transferred between colleagues if necessary at any time.
