(University of Manchester)

Mucogingival Surgery and Root Coverage Procedures

A Training Workshop for Dentists

Overview:

This combination of hands on practice and lecture focuses on current concepts in periodontal diagnosis and treatment planning of mucogingival therapy.

Discuss surgical and non-surgical options for the management of gingival recession, their indications and limits. Gain knowledge and practical skills in the surgical management of mucogingival therapy, flap design and suturing techniques.

This course involves a hands on element using pigs jaws to practice the surgical techniques.

For full aims, objectives, learning outcomes and to reserve your place visit the Maxcourse website: www.maxcourse.co.uk/henw

Refunds will only be given up to 4 weeks prior to the course date. However, places can be transferred between colleagues if necessary at any time.
