

Contemporary Management of Toothwear with Composite Resin

Venue: School of Dentistry, Education Wing

Dates: Saturday 9th April 2022

Time: 8.30am to 9:00am Arrival and Registration - Close at 5:00pm

Course Speakers:

Rahat Ali: Consultant in Restorative Dentistry / Specialist in Restorative Dentistry, Prosthodontics and Endodontics, Liverpool Dental Hospital.

Johanna Levan: Consultant/Honorary Senior Lecturer Restorative Dentistry, Manchester Dental Hospital

Who Should Attend?

The course is aimed at qualified General Dental Practitioners (GDP'S). It meets the new GDC requirements for enhanced CPD. Delegates can attend with an assisting dental nurse to enhance their skills, depending on Covid restrictions by the course date.

Aim: To help practitioners improve their composite resin and tooth preparation skills to allow them to manage tooth wear patients. It will be a series of seminars and practicals on the aetiology and restorative management of tooth surface loss. Delegates will be given the opportunity to build up a set of worn anterior teeth with composite (using a palatal index), and will be asked to prepare worn posterior teeth for adhesive gold onlays

Learning Outcomes: by the end of the event delegates will be able to:

- Describe the aetiology of non-carious tooth surface loss.
- Describe the different options available to manage tooth surface loss, including the use of indirect restorations, overdentures and composite resin.
- Recognise that a full contour wax-up and palatal matrix/index can significantly help the clinician to restore worn teeth with composite resin, especially if a layering technique is to be employed
- Describe the limitations, longevity and maintenance issues relating to the use of composite resin to restore worn teeth.
- Restore worn posterior teeth with adhesive gold onlays.

This programme qualifies for 6.5 hours of verifiable CPD

This course links to Enhanced CPD development outcomes: A, B and C

Course Fee and Booking Details

This course is subsidised by Health Education England. The subsidised fee is £135.00 for Dentists. This fee includes the practical sessions and consumables, a sandwich lunch and refreshments. Dental nurses can attend free of charge when a delegate fee is paid. Places on this course are limited to 12 and will be allocated on a first come first served basis. The course closing date is **19th March 2022**. To reserve a place please follow this online payment link: [Contemporary Management of Toothwear with Composite Resin - Saturday 9th April 2022 | University of Liverpool](#)

Please note under current requirements at the Dental Hospital, proof of a negative lateral flow test is required to attend the course. If this cannot be shown on the day, access cannot be given to the event

Cancellation policy: A refund, less £25 administration fee, is guaranteed for cancellations received up to three weeks before the start of the course (**19th March at 5pm**). No refund will be made for cancellations received after this date or for failure to attend. Substitutions fulfilling the criteria may be made at any time prior to the course start. If a cancellation is due to Covid, proof of a positive PCR test is required for a refund to be issued as detailed above. At any stage, if the course needs to be cancelled by the University a full refund of the delegate fee will be given.
