Specialist in Paediatric Dentistry

#### Overview of evening:

The evening is designed to update primary dental care teams on the 'Starting Well' programme and the approach to adopting the programme across Cheshire and Merseyside.

The events will highlight how the whole dental team can have an impact on improving the dental health of young children. The importance of patient centred evidence-based advice for parents and carers of very young children and utilising appropriate Starting Well resources. The ultimate aim being that practice teams will engage with the Starting Well programme in the practice setting

*A light buffet will be provided prior to the start of the meeting, offering you the opportunity to network with your peers.*

For full aims, objectives, learning outcomes and to reserve your place, visit the Maxcourse website:
