

How to Avoid Prescribing Errors

Improving health and care through education

This afternoon course will provide accurate, timely & evidence based advice on medicines and will cover a variety of medicine related issues, which will be of relevance to NHS dentists.

Aims

To enable participants to have an understanding of

- UK medicines regulations
- Adverse drug reactions, including bisphosphonates
- Drug interactions
- Prescribing & the law

Learning Outcomes

- Participants will be in a position to prescribe medicines within the current legal framework
- Minimise the risk to patients by raising awareness of drug interactions when prescribing & administering medicines
- Will recognise further areas of concern when treating patients on medicines or using medicines to treat patients
