

Rubber Dam: A Hands On Course for Dentists & Dental Nurses

Improving health and care through education

This half-day course will introduce dentists & their nurses to Rubber Dam and its theory. Using demonstration, participants will be shown the various ways it can be applied. Delegates will then be able to practise their skills under supervision, with the assistance of their nurse.

Course Aims

- To provide the background theory for Rubber Dam use
- To demonstrate various methods of Rubber Dam application
- Provide hands-on opportunity for Rubber Dam application & team working

Learning Outcomes

By the end of the presentation, participants should be able

- To understand & explain the benefits of Rubber Dam use
- To be conversant with a number of different methods of Rubber Dam application
- To return to their practice with the knowledge and ability to introduce Rubber Dam use
- Be familiar with team working when using Rubber Dam

The course is limited to 8 pairs for this half day course.
