

DNA TESTING AND DENTISTRY: DEVELOPMENTS IN GENOMIC MEDICINE

DNA analysis is being used more widely within the NHS, it helps clinicians find a diagnosis, identify the best treatment and also helps to prevent ill health.

This webinar will explore a range of scenarios where DNA testing can make a difference to patient care, considering examples relevant to Dentistry. The North West Genomic Medicine Service Alliance works across the NHS to support teams to use genomics in mainstream services.

Webinar

**Wednesday 13th September,
1pm - 2pm, with registration from
12.45pm**

1 Hours eCPD

Speakers :

Kate Dack

Genomics Educator

Dr Catherine Breen

Consultant Clinical
Geneticist

Mr Ben McIntyre

B.A. (Biochemistry),
MPharm, MSc
(Genomic medicine)

Cost

**This course is fully
subsidised by
NHS England
NB: if you book a
place and fail to
attend you will be
charged a £30
cancellation fee**
