

Medically Compromised Patients:

The impact on patients' treatment and the health of their mouth

This lecture-based presentation gives an overview of common medical comorbidities, their effects on oral health of our patients and the management of these patients within a dental setting.

Speaker: Karan Singh

Karan is a Specialty Dentist in Oral Surgery, Senior Clinical Fellow, Oral and Maxillofacial Surgery and Dental Implantology MSc programs. Over 10 years' experience of clinical teaching in Oral Surgery.
