

Dental Therapy Foundation Training - The Benefits of Becoming an Educational Supervisor

NHS England North West are inviting Practice Owners, Principals and Practice Managers to an informative free webinar.

Now is the time to be utilising a Dental Therapist in your practice for maximum potential. This webinar will explain how to become an Educational Supervisor for a Foundation Therapist and how this may benefit and grow your practice, increasing multidisciplinary working.

It will provide an insight into the Dental Therapy Foundation Training (DTFT) Programme and explain how by having a Therapist in your practice, working to their full scope, can increase productivity.

We are actively seeking suitable training practices and Educational Supervisors (ESs) for the DTFT Programme. You will hear from one of our current ESs about their experiences and the benefits of being an ES. There will also be an opportunity to ask any questions.

**NHS England North
West Webinar**

**Monday 8th January
2024**

6:00pm - 7:00pm
Registration from 5:45pm

**1 Hour
eCPD**
