

Clinical Dental Photography

This hands-on session is designed to improve the delegates understanding of the basics of photography, with a introduction to consistent and creative dental photography. It will look at how to educate healthcare professionals on the use of digital Single-lens reflex cameras and how to implement this into daily clinical practice.

Speaker: Dr Chirag Patel

Chirag has been utilising SLR photography in clinical practice since 2014.

Chirag has worked in Special care and OMFS as a Dental Core trainee,

Chirag now receives referrals from local colleagues and achieved North West Best Young Dentist title at the Dentistry Awards in 2022.
