

Advance Your Clinical Skills: IV Sedation Course for Dental Nurses

This interactive hands-on course is tailored for dental nurses looking to advance or update their role in conscious sedation procedures. Through a mix of expert-led theory, interactive workshops, and practical sessions, you'll gain the confidence and competence to:

- Support IV sedation safely and effectively
- Recognise and manage medical emergencies
- Understand safe cannulation techniques
- Learn the pharmacology of Midazolam and Flumazenil
- Conduct thorough patient assessments

Speaker;

Nasser Syed BDS.

Diploma in Conscious Sedation
2018.
