

Essential Skills in Minor Oral Surgery for Dental Nurses.

This hands-on course is designed to equip dental nurses with the essential knowledge, skills and confidence to effectively assist in minor oral surgery procedures. Through practical training and expert guidance, delegates will develop proficiency in key areas such as patient preparation, surgical support and post-operative care. Delegates will also have the unique opportunity to experience what it's like to practise suturing on realistic tissue, enhancing their understanding of surgical techniques in a lifelike setting.
