

PARTIAL DENTURES HANDS-ON COURSE

NHS
England

NHS Dentist : £180

Non NHS : £360

Mastering Partially Edentulous Patients

Advance your prosthodontic expertise in this immersive, hands-on course conducted in a fully equipped simulated clinical environment.

- Gain confidence in managing partially edentulous cases
- Master primary and secondary impression techniques
- Design custom dentures with precision and predictability
- Blend essential theory with real-world clinical application

SPEAKER:

Martin James
BDS, MJDF RCS(Eng)

Martin is a Fellow in Restorative Dentistry, specialising in Prosthodontics. He shares a wealth of experience in advanced, evidence based denture techniques and complex case management.
