

This course is designed to update the GDPs knowledge & skills on modern endodontics. The course is a combination of lectures & hands on practice, based in the Multi Skills facility at the Liverpool Dental Hospital.

#### Aim

- To provide knowledge of modern endodontics & to obtain skills in endodontic access, biomechanical preparation use, hand & rotary instruments and obturation

#### Learning Outcomes

At the end of this course, the participant should be able to

- Describe the current concepts of modern endodontic practices
- Acquire the knowledge & skills including the use of case selection & treatment planning, magnification, access & negotiation, NiTi preparation, accurate working length determination and obturation

It is essential to bring 2 to 4 extracted human teeth along with you to the course.
