

Step Inside Dementia Training:

A course for the dental team

This course is designed to enable individual staff and teams to begin to understand the lived experience for people living with dementia.

Aim:

Building skills and confidence to support people with dementia effectively.

Objectives:

The day explores four areas:

- “What’s happening” how each person’s experience is unique and looks at what dementia is.
- “Who am I?” how our memory works and to appreciate how our past shapes our future
- “A strange new world” how dementia can affect the perception of the environment and the world around us.
- “Connect with me” recognises different ways of communication and the importance of touch in connecting with people.

Learning Outcomes:

To identify different causes of dementia and how this may impact on the way that people interact with the world around them.

This course qualifies for 5.5 hours verifiable CPD
