# ORAL HEALTH AND APPLICATION OF FLUORIDE VARNISH FOR DENTAL NURSES

**This higher education course is certificated by The University of Central Lancashire (UCLan) and delivered in partnership with Health Education North West and Colgate®.**

The aim of the course is to prepare a GDC registered dental nurse to achieve a 20 credit degree module in evidence-based and effective oral health advice and the application of fluoride varnish

- 4 full days of classroom sessions (held between 9am and 5pm)
- 200 learning hours over a 12 week period
- Students require a computer and internet access to complete e-learning elements of study
- Students are required to see 35 patients to complete a clinical record, this work must be directly supervised by a dentist.
- Students are assessed by submission of a written portfolio and a Direct Observation of Practice (DOPs)
- £125.00 registration fee payable by student's employer plus £25 (local charge)

If you would like to apply for this course, dental nurses and their supervising dentist must be available to attend the Learning Event which is being held on **Monday 23rd February 2015**

To apply please call **VSM Healthcare** now on **0161 665 2882**
