

Advanced Endodontics & Composites

Health Education North West
Postgraduate Dentistry

Peter Smyth runs a referral clinic in South Liverpool. His qualifications include a master's degree in Prosthodontics & 15 year's experience of private referral work concerned with restoring failing adult dentitions. The course day will include lively discussions, brief presentations, table clinics & hands on experience. The day will be split between two subjects:

1. Predictable root fillings & restoring pulpless teeth
2. Composite techniques

Objectives:

- Intermediate & advanced endodontic techniques will be presented
- Study the indications for restoration of anterior & posterior pulpless teeth
- Demonstrate intermediate & advanced composite restorative techniques with practical experience

Outcomes:

- Participants can incorporate the techniques into their everyday clinical work

****This course qualifies for 6 hours verifiable CPD****
