

## Combined Lecture

# Infection Control /Legal & Ethics

A combined morning of lectures for the whole dental team, detailing the latest in Infection Control and updates for your Legal and ethical practice, detailing "Records, Confidentiality and Social media"

## Aims

- To provide evidence of risks from infectious disease in dental practice
- To identify patient concerns around cleanliness
- To clarify CQC compliance criteria and identify areas that will be inspected
- The Effects of discontent and complaint on the dental team members
- What makes patients unhappy?
- Do clinical mistakes or adverse outcomes always cause problems?
- Meeting Patients expectation
- To describe and discuss records, confidentiality and social media

## Objectives

- To update participants' knowledge of important pathogens in dentistry
- To allow participants to reflect on how their practice appears from their patients' perspective
- To ensure that participants understand the infection control guidance contained in HTM 01-05
- To detail the evidence items required for practices to comply with the Health and Social Care Act 2008, Code of Practice

## Learning Outcomes

- Understanding of the risks from infectious diseases in dental practice
- Ability to identify areas that are a concern for patients
- A working knowledge of essential quality and best practice requirements contained in HTM 01-05
- Awareness of evidence required for the practice to comply with CQC criteria
- To update and enhance understanding of the importance of good clinical records for team members
- To review confidentiality and describe the professional implications of the use of social media
