

The Pleasures of Latex

A PRACTICAL HANDS ON GUIDE TO PLACING RUBBER DAM

This event will recognise the place for rubber dam in every day dental practice and familiarise participants with quick and easy techniques for the placement of rubber dam.

We have two half day courses running on the same day. Please choose either the morning or the afternoon session. This practical 'hands-on' session will encompass the skills needed for placing Rubber dam. This course will also emphasise the role of the dental nurse in the quick delivery and placement of rubber dam, Dentists are eligible to invite their nurse for the session

Aim

- To revise the reasons for the every -day use of rubber dam
- To recognise the place for rubber dam in every day dental practice and not reserved for specialist practice
- To familiarise patient with quick and easy techniques for the placement of rubber dam
- To emphasise the role of the dental nurse in the quick delivery and placement of rubber dam

Objectives

- Be able to recognise the benefits of rubber dam
- Have an ability to place rubber dam routinely with one or two methods in reserve for difficult cases
- Recognise the importance of familiarising the nurse with the routine techniques used

This course meets the education criteria set by the GDC and qualifies for 3 hours verifiable CPD
