

An Event for Dentists

Hands on Endodontics

Clean, shape and fill!

Aim

To give the opportunity to try hands on canal shaping using reciprocation with WaveOne Gold. To give the participants the opportunity to try hands on warm obturation methods. To demonstrate evidence based protocols for irrigation and coronal seal.

Objectives

- Increase awareness of the importance of good endodontic access
- Be familiar with different canal shaping techniques
- To appreciate the importance of a glide path
- Understand the use of reciprocation in canal shaping
- Appreciate a recommended irrigation protocol
- Be familiar with various obturation techniques

Learning Outcomes

The participant will:-

- be aware of the importance of good access
- be able to achieve a reproducible glide path
- be familiar with reciprocation used in canal shaping
- be familiar with an evidence based irrigation protocol
- be able to apply the use of warm obturation techniques in their practice.

This course meets the GDC educational criteria and qualifies for 5.5 hours verifiable CPD
