SPEAKER

Alzheimer's Society
Training and Consultancy

Dementia Awareness Training

A course for the Dental Team

Overview:

This introductory skills-based course will enable participants to understand the unique ways that dementia affects people. Made up of four different modules, participants will learn how to apply evidence based practical tools for building positive relationships to support people with dementia to live well. Delegates will also develop a deeper empathy and understanding and gain the tools they need to be able to build positive relationships with people with dementia.
