

Considering Building Skill Mix?

How a dental therapist can help build your practice

Health Education England North West are inviting practice owners, principles and practice managers to an informative free webinar.

This webinar will demonstrate how a dental therapist can help build your practice. Hear from dental practices who are positively benefiting from having therapists within their practice. There will also be opportunities to ask them questions directly.

Tracy Thompson, our Training Programme Director will explain how a dental therapist can efficiently work within the practice team. She will discuss the benefits of employing a therapist whilst detailing how the HEE NW Dental Foundation Therapist programme works.
