### **Who Should Attend?**

The course is aimed at dental technicians and other members of the dental team with an interest in this area.

**Aim:** To provide a panel based discussion to supply information on Open digital workflow, from clinic to laboratory, as an alternative to traditional impression taking and stone model preparation. The panel will answer commonly asked questions and will be interactive, with questions being taken from participants in the audience.

### **Learning Outcomes:**

By the end of the event delegates will be able to:

- Describe the use of Open Digital workflow
- Explain file output from Open Intra oral scanner in clinic.
- Explain file receipt in the laboratory and manipulation in Open CAD software
- Summarise the use of workflow for custom made implant abutments and 3D printed CAD analogue models

**\*This programme qualifies for 3 hours of verifiable CPD\***
