Treatment planning

A course for dentists

Overview:

This new course is designed to enhance your treatment planning skills, introducing useful clinical tips to help you recognise and manage patients' symptoms, needs, demands and expectations.

Refresh your knowledge of systematic patient assessment and explore factors which may affect treatment prognosis to develop your current practice through learning from case studies and clinical guidelines.

For full aims, objectives, learning outcomes and to reserve your place visit the Maxcourse website: www.maxcourse.co.uk/henw

Refunds will only be given up to 4 weeks prior to the course date. However, places can be transferred between colleagues if necessary at any time.
