

**Endodontic Local Anaesthesia  
(SW10-11-29-2)**

Date and venue:

29<sup>th</sup> November 2010

Postgraduate Medical Education Centre, Royal Bournemouth Hospital

Course Organiser:

Steve Doman

Course Lecturers:

Dr Nigel Foot

**Course Aims**

- Delegates will learn the physiological changes that occur in the Central Nervous System and Peripheral Nervous System in pulpal inflammation.
- Delegates will appreciate how these changes translate into difficulties in anaesthetizing inflamed pulps.
- Revise the mode of action of dental local anaesthetics and what types of local anaesthetic agents are available to use in dentistry

**Course Objectives**

By the end of the lecture delegates will;

- Know what local anaesthetic delivery systems and techniques can help in overcoming the problems in anaesthetizing inflamed pulps
- Know which types of local anaesthetic agent to use in this challenging clinical situation

**Course Timings**

|                 |               |
|-----------------|---------------|
| 2.00pm          | Registration  |
| 2.00pm – 3.00pm | Session One   |
| 3.15pm – 3.30pm | Break         |
| 3.30pm – 5.00pm | Session Two   |
| 5.00pm          | End of Course |
