

Forensic Dentistry – “Success is a Funeral”
Thomas Sydenham Education Centre, Dorset County Hospital,
Dorchester
Thursday 19th January 2012

Course Tutor – John Robson

Our speaker says that "dental ID plays a vital role in the identification of victims of mass disaster. It is important that we work together with the investigating authorities and other scientific disciplines to arrive at the correct decision - we cannot allow mistakes to occur." The advantages and disadvantages of dental ID will be discussed as will the mortuary, comparison and legal processes involved, with numerous references to transport and natural disasters from the John's own casework.
