Aims-

The aim of the study day is to show how modern restorative dentistry can be applied in a skilled and responsible manner to deliver improved outcomes for patients.

Objectives-

- 1) Be able to discuss methods of contemporary tooth replacement.
- 2) Be able to describe the limitations and indications of anterior and posterior composite resin restorations.
- 3) Be able to provide treatment planning strategies for dealing with the failing dentition.
- 4) Be armed with sound clinical information which can be incorporated into daily practice.
