

IR(ME)R-Update in Dental Radiography- Core CPD.

Date and venue:

Friday 20th September 2014.
The Barn Function Centre
Berkleley
GL13 9EW

Course Organiser:

Keith George

Course Lecturers:

Mr Ian Hamilton.

Programme

0915- 09.30	Registration
09.30 -10.45	Session 1.
10.45 -11.00	Coffee
11.00-12.30	Session 2.
12.30-13.30	Lunch
13.30-15.00	Session 3.
15.00-15.30	Coffee.
15.30-16.30.	Session 4 -Discussion and close.

Course Description-

This lecture will address GDC requirement for verifiable CPD in this core subject: understanding the principles of Radiation Protection and how these are translated into practice. Ian will enable you to have an overview of the implications for radiation detriment to the patient of various radiographic techniques and alternative imaging modalities.

Aims-

Understand what statutory legislation is applicable to Dental Radiology/Radiography (IRR99(ME)R2000IR(ME) amending regulation 2006) and what specific roles and responsibilities are laid down within these regulations (with particular regard to local rules and pregnancy)

Objectives-

Revise the nature of and the specific hazards associated with ionising radiation in order that all members of the dental team understand the need to protect themselves and their patients.

Understand the principles of radiation protection and how these are translated into practice.
