Aims –

This course will include problem solving to assess current treatment planning methods and enable the dental team to improve periodontal treatment planning in general dental practice.

Objectives-

By the end of the course participants will be able to;

- 1) Effectively identify and diagnose types of periodontal disease including spotting the more challenging cases.
- 2) Use appropriate methods to diagnose and treatment plan.
- 3) Formulate treatment plans with the aid of case studies.
- 4) Be able to liaise with other members of the team in providing sound care and management .
