Aim:. To increase the participant's knowledge and gain a better understanding of health and safety in the workplace.

Objectives: By the end of the course the participants should be able to:

1. Understand the principles of occupational health and safety and be able to apply this knowledge in the workplace.
2. State and understand the scope of legal and moral responsibilities whilst at work.
3. Understand the principles of accident prevention and the need to report accidents and dangerous occurrences.
4. Understand the importance of risk assessment and the practical actions to improve health and safety and to prevent accidents.
5. Be aware of the hazards and risks associated with the workplace, work equipment, work activities, fire, display screen equipment and hazardous substances.
6. Determine reasonable methods to control risks associated with all aspects of the working environment/

All of the above are considered in terms of the dental environment.

The above aims and objectives are met through the completion of an assessment exercise consisting of 30 multiple-choice questions.
