08.30- 09.00	Registration
09.00 -11.00	Session 1: Revision of taking a medical history.
11.00 -11.20	Coffee
11.20-12.45	Session 2: Oral surgery and pharmacology.
12.45-13.45	Lunch
13.45-15.15	Session 3: Oral surgery.
15.15-15.30	Coffee
15.30-16.30	Session 4 Overview of surgical aspects of implant surgery. Questions and feedback.

**Aims –**

- 1) To recognise which oral surgery cases can be safely tackled in general practice and which cases should be referred.
- 2) To describe some top tips for successful minor oral surgery in general practice.
- 3) To describe the common complications in minor oral surgery and provide information on how to manage them.
- 4) To summarise the key issues relating to the placement of implants.
- 5) To understand the importance of the medical history.

**Objectives-**

- 1) To realise when to refer certain cases and which cases to safely tackle in practice.
- 2) To realise the necessity of a thorough medical history prior to minor oral surgery.
- 3) To realise when complications arise and what to do when they arise.

- 4) To realise the basics of dental implant placement.
