

‘Essential Periodontics: Assessment and Diagnosis’

Date and venue:
Thursday 16th April 2015

Postgraduate Medical Centre, Royal United Hospital Bath

Course Organiser:
Professor Tony Ireland

Course Lecturers:
Dr Phil Ower and Dr Sarovi Drone

Aims and Objectives:

1. To appreciate the range of periodontal conditions that require treatment, and those that do not.
2. To understand the principal aetiological and risk factors involved in the development of periodontal diseases.
3. To understand the importance of screening and assessment for periodontal disease in general dental practice.
4. To understand the value and limitations of periodontal probing.
5. To appreciate the factors influencing the assessment of prognosis for individual teeth.
